

NORWEGIAN MAPPING
AUTHORITY

LANDREPORT NORWAY

SPATIAL DATA – FOR BENEFIT OF THE SOCIETY

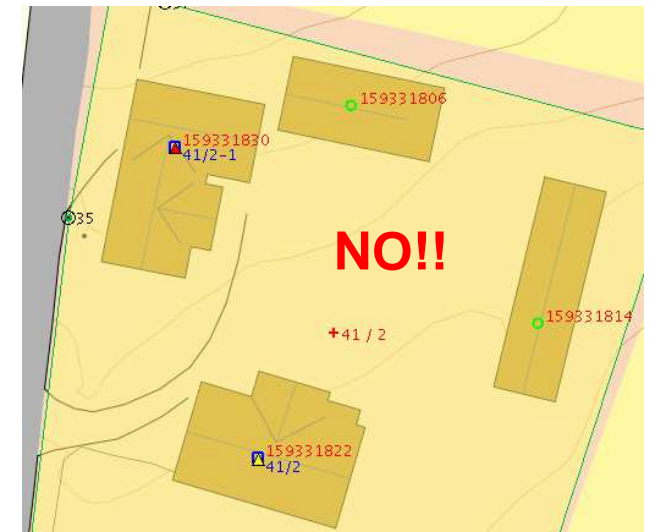

LEGISLATION AND SYSTEM

- Act
- Prescription
- Address Guideline
- "Matrikkelsystem"

TRAINING AND PROJECTS

- 2000 people, 5 day course, 3 days of recording and 2 days legislation
- 2 day course in addresses and place names in all counties, during spring and autumn 2010
- Norwegian address forum
- One address system in 2015

HIGHLIGHTS NPR NORWAY

Nordic address meeting 2010

ADDRESS QUALITY

Increased data quality in

- dwelling addresses
- postal addresses

Achieved through

- manual handling of discrepancies between matrikkel and address register in NPR
- analyses of returned mail, and implementing a variety of measures

DWELLING NUMBER COVERAGE

Increased coverage in dwelling numbers from 87 % to 92,5 % since last meeting.

Achieved through

- using the dwelling number in the address when sending mail to all citizens (the prefilled tax return etc)
- cooperating with Norway Post, Statistics Norway, Norwegian mapping authorities
- change of dunning routines
- on the spot collecting etc

STATISTICS NORWAY (SN)

- The census in 2011 will be totally register-based.
 - Data on households, families and couples will be collected from the CPR and data on housing from the Cadastre by using the formal addresses from the register. 98 percent of the population in Norway has already been connected to a house in the Cadastre by using the address
- SN has the last year worked with changing the technical platform for updating data daily directly from the Cadastre

POSTEN NORGE, ADRESSER MAI 2009 - MAI 2010

NORWAY POST, ADDRESSES MAY 2009 - MAY2010

- Etablert daglig overføring av adresser direkte fra Matrikkelen via API
Established daily transfer of address data from “Matrikkelen” via API
- Synkronisert Postens adresseregister med Matrikkelen på nytt – etablert KPI'er
Synchronized the Postal address register. Established KPIs for addresses
- Etablert en ny adresseajourholdsgruppe - også for kommunene
Established a new address management unit, which also can be contacted directly by the municipalities
- Sperret tilganger til å opprette adresser ved distribusjonsenhetene
Removed access to directly create new addresses by the delivery offices
- Prosjekt for standard postadresse; enten vegadresse/stedsadresse eller postboksadresse
Implementing of standard post addresses has started. Only two types of post addresses are valid; either a street address or a post box address
- Deltar i etablering av Norsk Adresseforum
Participates in the establishment of the Norwegian Address Forum
