## **Implementing INSPIRE for addresses**

-a basis for discussion

Morten Lind  
[mli@ebst.dk](mailto:mli@ebst.dk)

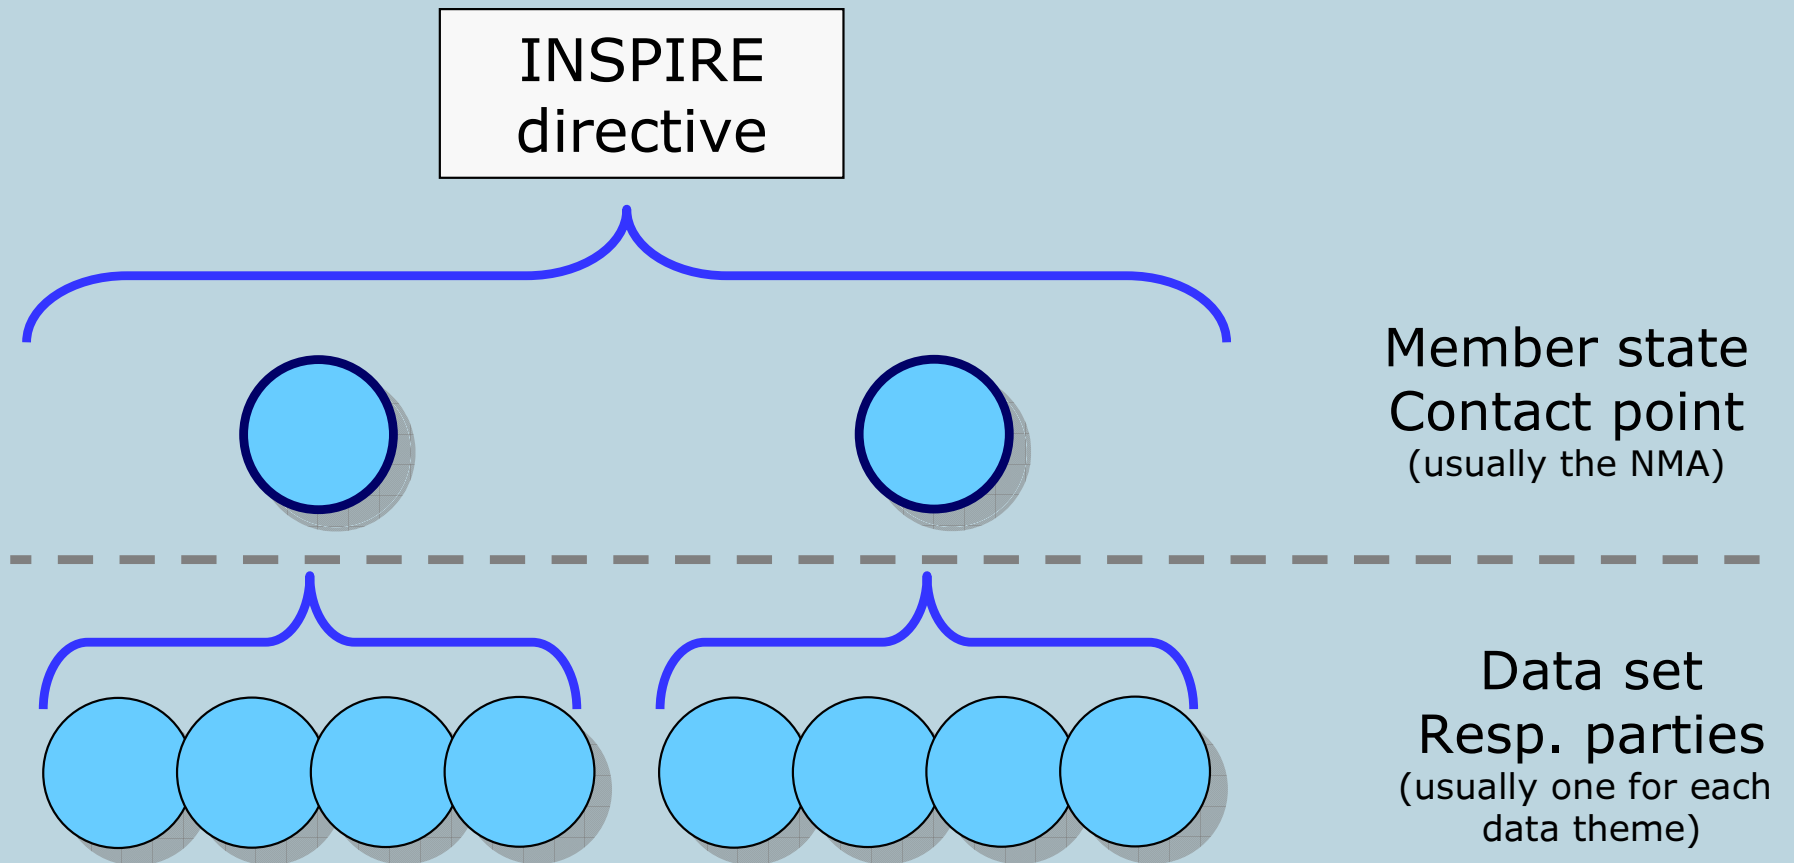

# INSPIRE: What and who is covered?

## *Article 5*

1. Member States shall ensure that metadata are created for the spatial data sets and services corresponding to the themes listed in Annexes I, II and III, and that those metadata are kept up to date.

# INSPIRE 'organization'

## Question:

What if several address data set is created and maintained by different authorities or agencies?

## Metadata: 15th December 2010

### *Article 5*

1. Member States shall ensure that metadata are created for the spatial data sets and services corresponding to the themes listed in Annexes I, II and III, and that those metadata are kept up to date.

- Denmark:
  - KMS-DK will provide the Danish geodata portal
  - We have made first draft metadata description of the BBR address data
  - We have not yet considered updating procedures

## Data Specifications and services: 2012

### *Article 8*

1. In the case of spatial data sets corresponding to one or more of the themes listed in Annex I or II, the implementing rules provided for in Article 7(1) shall meet the conditions laid down in paragraphs 2, 3 and 4 of this Article.

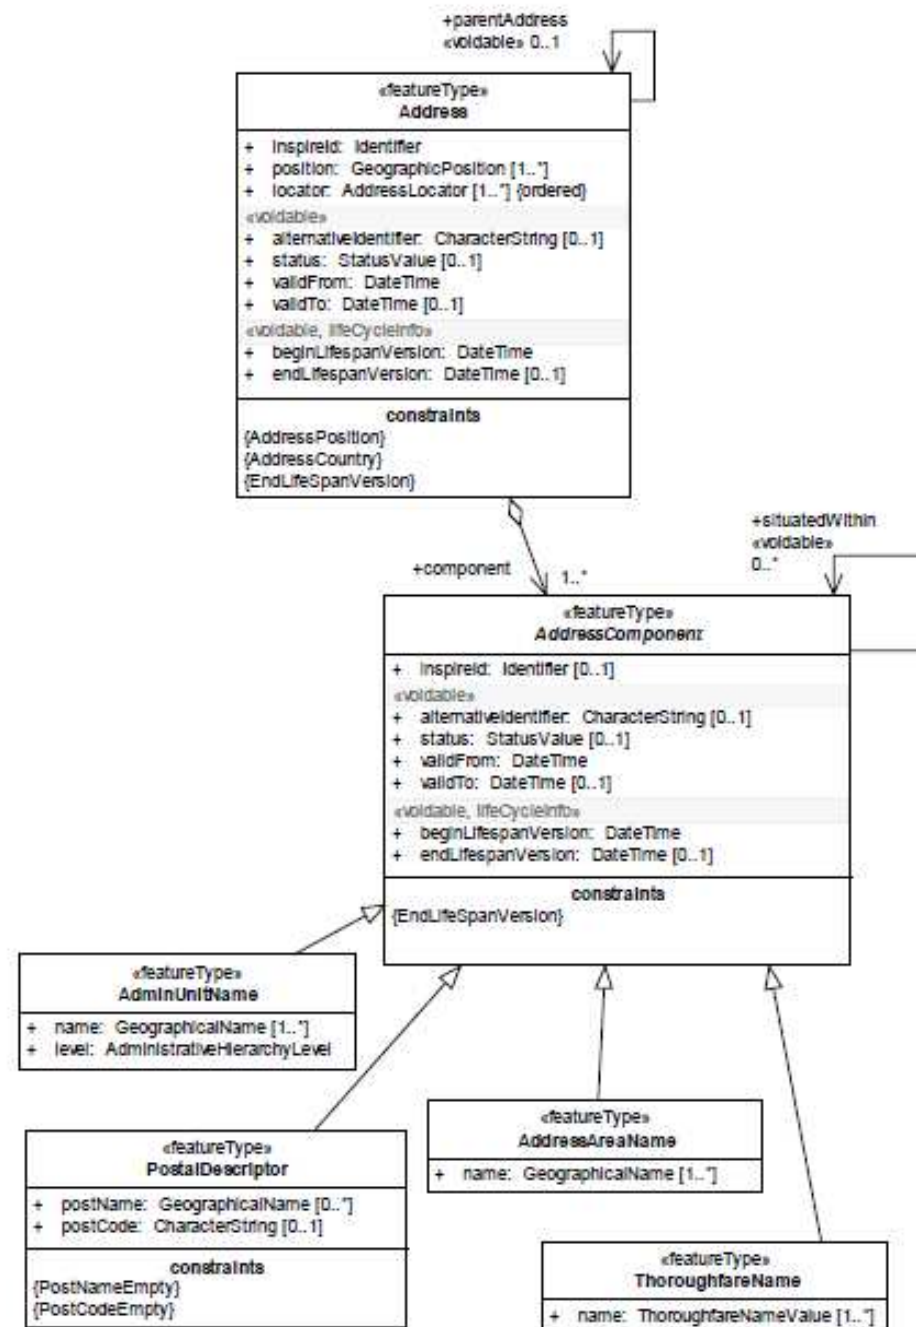

### *Article 11*

1. Member States shall establish and operate a network of the following services for the spatial data sets and services for which metadata have been created in accordance with this Directive:

(discovery, view, download, transformation ...)

- Denmark:
  - We have not yet considered and decided how to comply with these requirements for BBR's addresses

# INSPIRE Data Specification - Addresses

## Question:

- Are our address data set compliant with the DS?
- If not: How do we do solve this?
- Denmark:
  - BBR-addresses will be 'almost' compliant, but we need to fix some details:
  - Addresses without an address point
  - The representation of object type "Named road"
  - Is our lifecycle information (valid from/valid to) compliant with the DS'?

## Question

Can we help each other?

Can we use the Nordic Address Forum in  
the process of implementing  
INSPIRE for addresses?
